RECIPES FOR FULL DIET FOR TEN MEN.

INDEX.—1, Coffee. 2, Tea. 3, Hominy. 4, Rice. 5, Succotash. 6, Gravy. 7, Meat Hash. 8, Codfish Hash. 9, Codfish and Mackerel, boiled. 10, Potatoes. 11, Beef Soup. 12, Beef or Mutton Stew. 13, Roast Beef or Mutton. 14, Pork and Beans. 15, Cabbage. 16, Turnips. 17, Cole Slaw. 18, Pickled Beets. 19, Rice Pudding. 20, Stewed Fruit. 21, Savory Bread.

1. Coffee.—Coffee, roasted, 5 oz.; Sugar, 6 1/2 oz.; Milk, 1/2 pint.

Directions.—Put the Coffee in 4 1/2 quarts of boiling water. Stir well until boiling has recommenced. Cover the boiler and continue the boiling two minutes. Take the boiler off the fire, pour into it one pint of cold water, and replace the cover. In ten minutes the Coffee may be carefully poured into coffee-pots, and the sugar and milk added.

2. Tea.—Tea, 1/2 oz.; Sugar, 5 oz.; Milk, 1/2 pint.

Directions.—Put the Tea, closely tied up in a bag of netting, into five quarts of boiling water. Let it boil one or two minutes. Take it off the fire and let it stand, covered, on the range fifteen minutes to draw. Add the milk and sugar.

3. Hominy.—Hominy, 15 oz.; Salt, 1/2 oz.

Directions.—Wash the Hominy thoroughly in warm water. Put the salt into the boiler with one quart of water. When boiling stir in the Hominy. Let it boil, very gently, twelve hours, filling up with boiling water as the water in the boiler wastes, but without stirring. Drain off all the water that remains after it is sufficiently cooked. Add any beans that may be left from Wednesday's dinner to Thursday's breakfast.

4. Rice.—Rice, 1 lb.; Salt, 1/2 oz.; Water, 1 gall.

Directions.—Put the salt and water into a boiler, and when boiling add the Rice, previously well washed. Boil three-quarters of an hour, or until the grains are soft. Drain off the water; let it stand a few minutes beside the fire.

5. Succotash.—Beans, 1 lb.; Hominy, 1/2 lb.; Gravy, 1/2 pt.; Salt, 1/2 oz.; Pepper, 1/8 oz.

Directions.—Wash the beans and hominy thoroughly in three waters to cleanse them. Then put them to soak in a sufficient quantity of water to cover them for five hours, after which pour off the water, being careful to drain them quite dry. Then put them in a boiler or vessel previously prepared with 1/2 pint of boiling water and boil over a slow fire six hours; then add 1/2 pint of gravy, 1/2 ounce of salt, 1/8 ounce of pepper, and simmer over the fire one hour, after which it is ready for use. Frequent stirring is necessary to keep it from scorching.

6. Gravy.—Beef drippings, 1 pt.; Water, 1/2 pt.; Flour, 2 1/2 oz.

Directions.—Heat the beef drippings. Mix the flour into a smooth paste with 1/2 pint of cold water. Stir the paste into 1/2 pint of boiling water and let it boil 8 minutes. Add to it the hot beef drippings, and let the whole heat together for a few minutes. The gravy will require neither pepper nor salt, if the beef from which the drippings are taken has been sufficiently seasoned while roasting.

7. Meat Hash.—Meat, 2 1/2 lbs.; Bread, 10 oz.; Potatoes, 15 oz.; Pepper, 1/8 oz.; Salt, 1/2 oz.

Directions.—Chop the meat (previously boiled with the bones) fine; boil and mash the potatoes; mix both together with the bread, crumbled fine, and the pepper and salt, moistening with the broth in which the meat and bones were boiled, without adding water. Simmer for half an hour, stirring constantly.

8. Codfish Hash.—Codfish, 4 1/2 lbs.; Potatoes, 8 lbs.; Pork drippings, 1 lb.

Directions.—Put the Codfish to soak over night, fleshy side downward; drain off, and remove the water twice, if possible. In the morning, put it into a boiler and simmer it until it is tender. Chop it fine. Have the potatoes boiled and mashed; mix them well with the Codfish. Put the whole over the fire; stir in the pork drippings, and let it heat thoroughly.

9. Codfish, Boiled.—Codfish, 4 1/2 lbs.

Directions.—Soak the Codfish over night, as for codfish hash; put it into a boiler with water enough to cover it entirely. Let it simmer gently half an hour, or until tender.

Mackerel, boiled.—Proceed as with codfish, except that it is to be boiled only a quarter of an hour.

10. Potatoes.—Potatoes, 6 1/2 lbs.; Salt, 1/2 oz.

Directions.—Wash the Potatoes thoroughly; put them into boiling water, enough to cover them. Let them boil twenty minutes or half an hour, and drain off the water. Let them remain at the fire a few minutes.

11. Beef Soup.—Beef, 7 1/2 lbs.; Flour, 1 lb.; Turnips, 13 oz.; Onions, 1 lb.; Cabbage, 10 oz.; Pepper, 1/8 oz.; Salt, 1/2 oz.; Water, 6 1/2 qts; Rice, 2 1/2 oz.

Directions.—Cut the meat in pieces of 3 pounds each; crack the bones, so as to expose the marrow, without splintering them in fine pieces. Put all the ingredients, except the rice and pepper, into a boiler with 6 1/2 quarts of cold water and heat till it boils. Boil very gently for two and a half hours. Take out all the meat; cut it from the large bones, and return the bones to the boiler. When boiling the quarter hours, add the pepper. Have the flour mixed into a smooth paste with cold water; stir it in carefully. Let it boil a quarter of an hour, stirring all the time.

12. Beef (or Mutton) Stew.—Beef or Mutton, 3 1/2 lbs.; Flour, 1 lb.; Rice, 6 1/2 oz.; Potatoes, 1 lb.; Pepper, 1/8 oz.; Mixed Vegetables, 2 oz.; Salt, 1/2 lb.; Water, 1 gal and 1 pt.

Directions.—Cut the meat in pieces of 6 ounces each. Put it into boiling water with the salt. Let it boil one and a half hours. Add the rice, which must first be thoroughly washed. Put three-quarters of an hour. Cut the potatoes and mixed vegetables into small slices, and add them to the meat and rice. Let the whole boil half an hour longer. Put in the pepper. Mix the flour into a smooth paste with cold water and stir it in the stew. Let the whole boil ten minutes, stirring constantly.

13. Roast Beef or Mutton.—Roast Beef or Mutton, 3 1/2 lbs.; Pepper, 1/8 oz.; Salt, 1 lb.; Water, 1 gal.

Directions.—Cut the meat from the bones in as large pieces as practicable; roll and tie them. Bake the meat in pans with the salt and water. Put into the oven and bake three hours, or longer if necessary. Add the pepper ten minutes before it is done. The quantity of meat above named is three-quarters of that issued for dinner and the next day's breakfast; the other quarter is to be thrown with the bones, which must be cracked, into a boiler, with water enough to cover them, the whole to simmer until the meat can be easily separated from the bones. The meat with the broth is to be set aside for hash.

14. Pork and Beans.—Pork, 4 1/2 lbs.; Beans, 1 quart; Pepper, 1/8 oz.

Directions.—Soak the Beans over night in plenty of water. Boil the Pork and Beans separately for two hours. Put about one-seventh of the whole quantity of the Pork in pans surrounded and covered

with the Beans. Add the pepper. Bake one hour over a moderate fire. Bake the remainder of the Pork for the same length of time. Any Beans left from dinner will be mixed with the hominy on Thursday's breakfast.

15. Cabbage.—Cabbage, 2 1/2 lbs.; Salt, 1/2 oz.

Directions.—Put the Cabbage and salt in boiling water. Boil half an hour. Drain off the water.

16. Turnips.—Turnips, 2 1/2 lbs.; Salt, 1/2 oz.

Directions.—Wash the Turnips thoroughly and pare them. Put them with the salt into boiling water. Let them boil one hour.

17. Cole Slaw.—Cabbage, 2 1/2 lbs.; Vinegar, 1/2 pint.

Directions.—Slice the Cabbage fine. Pour over the vinegar and mix well.

18. Pickled Beets.—Beets, 2 1/2 lbs.; Vinegar, 1/2 pint.

Directions.—Boil the Beets two hours. Pare and slice them. Pour the vinegar over them.

19. Rice Pudding.—Rice, 10 oz.; Sugar, 3 1/2 oz.; Flour, 1 1/2 oz.; Salt, 1/8 oz.; Cinnamon, 1/8 oz.; Water, 3 1/2 qts.

Directions.—Wash the Rice carefully. Put it into the water when boiling, with the sugar and salt. Boil gently three-quarters of an hour. Add the flour, previously mixed into a smooth paste with cold water, and the cinnamon. Stir it on the fire carefully for five or ten minutes. Put it into pans and bake for two hours.

20. Stewed Fruit.—Dried Fruit, 15 oz.; Sugar, 2 oz.; Water, 2 1/2 quarts.

Directions.—Soak the Dried Fruit for three hours in three gallons of water. Drain and add the sugar. Boil gently two hours, or until quite soft.

21. Savory Bread.—Bread, 2 1/2 lbs.; Onions, 1 lb.; Beef drippings, 1 lb.; Pepper, 1/8 oz.; Salt, 1/2 oz.

Directions.—Crumble the Bread fine. Chop the onions. Mix together with the beef drippings, salt, and pepper. Bake until nicely brown.

RECIPES FOR SPECIAL DIET FOR TEN MEN.

INDEX.—1, Coffee. 2, Tea. 3, Milk Toast. 4, Boiled Eggs. 5, Poached Eggs. 6, Beefsteak. 7, Milk Porridge. 8, Farina Pudding. 9, Beef Essence. 10, Stewed Chicken. 11, Chicken Broth. 12, Mutton Chop. 13, Mutton Broth. 14, Beef Tea. 15, Stewed Oysters. 16, Boiled Rice. 17, Corn Starch. 18, Mashed Potatoes. 19, Broiled Ham.

1. Coffee.—Coffee, 4.80 oz.; Milk, 10 oz.; Sugar, 6.40 oz.

Directions.—Put the Coffee into 1/2 pints of boiling water. Stir well until boiling has recommenced. Cover and continue the boiling two minutes. Remove the boiler from the fire. Pour into it 2 1/2 pints of cold water and replace the cover. In ten minutes the Coffee may be carefully poured into coffee-pots, and the sugar and milk added. The milk should be boiled and hot.

2. Tea.—Tea, 1 oz.; Milk, 6.40 oz.; Sugar, 4.80 oz.

Directions.—Put the Tea, tied up closely in a bag of netting, into ten pints of boiling water. Let it boil one or two minutes. Take it off the fire and let it stand, covered, on the range fifteen minutes to draw. Stir in the milk and sugar.

3. Milk Toast.—Bread, 3 1/2 lbs.; Butter, 2 1/2 oz.; Milk, 2 1/2 pints.

Directions.—Boil the milk. Add the butter. Toast the bread. Drop it into the hot milk and butter. Let it remain until thoroughly saturated.

4. Boiled Eggs.

Directions.—Put them into boiling water and let them boil three minutes.

5. Poached Eggs.

Directions.—Break them into boiling water, with a little salt. Let them boil three or four minutes. Take them up with a skimmer, draining them well. Sprinkle over them a little pepper.

6. Beefsteak.—3 1/2 lbs.

Directions.—Warm the gridiron. Cut the Steak an inch thick. If the meat be tough, pound it before putting it on the gridiron. Broil

it on hot coals ten or twelve minutes. Turn it four or five times, and when done add salt and pepper.

7. Milk Porridge.—Milk, 7 1/2 pints; Flour, 10 oz.; Water, 3 pints.

Directions.—The flour to be used for Milk Porridge should be previously prepared by being tied up closely in a bag and boiled four or five hours. It can then be grated to powder, which should be mixed into a smooth paste with cold water. Add to the milk the prescribed quantity of water, and stir in the flour, with a little salt. Let it boil ten minutes, stirring all the time.

8. Farina Pudding.—Farina, 1 lb.; Milk, 2 pints; Water, 1 pint; Sugar, 2 1/2 oz.; Eggs, 4 oz.; Nutmeg, 1/4 oz.

Directions.—Put the water into a stewpan with a little salt. When it boils, stir in the Farina. Let it boil twenty minutes. Stir in the milk, which must be hot. Beat the eggs until they are very light; mix the sugar with them. Stir in the eggs and sugar with the Farina. Add the spice. Put it into a moderate oven and bake a half or three-quarters of an hour.

9. Beef Essence.—Beef, 6 1/2 lbs.

Directions.—The Beef should be lean and juicy, and without bone. Cut it into small pieces of about an inch square. Put it into a closely-covered can, and place the can in a boiler so that it shall be surrounded with water, which must boil for seven or eight hours, at least.

10. Stewed Chicken.—Chicken, 3 1/2 lbs.; Flour, 3 oz.; Salt, 1/2 oz.

Directions.—Divide the Chicken into pieces of six ounces each. Put them into a stewpan with the salt and pork. Cover them with cold water and simmer till tender, keeping them always covered with

water. Make a paste of the flour with cold water. Stir it smoothly into the gravy. Replace the pieces of Chicken, and let them stew eight or ten minutes.

11. Chicken Broth.—Chicken, 3 1/2 lbs.; Salt, 2 oz.; Flour, 2 oz.

Directions.—Cut the Chicken into pieces. Put it with the salt into the kettle with 12 pints of cold water. Let it simmer gently two or three hours, carefully and frequently skimming off the grease. Make a paste of the flour with some cold water; stir it in and boil ten minutes longer. It should measure ten pints when done.

12. Mutton Chop.—Mutton Chop, 3 1/2 lbs.

Directions.—Beat the Chops lightly. Put them on the gridiron, previously warmed. Sprinkle with a little salt, and turn four or five times while broiling. They will require ten minutes over a good fire. If when a Chop is pressed with a knife it feels firm, it is done.

13. Mutton Broth.—Mutton, 3 1/2 lbs.; Salt, 2 oz.; Barley, or Rice, 2 oz.

Directions.—Break the bones without separating the meat. Put it into 12 pints of cold water, with the salt and rice, or barley. Boil gently two hours and a half, carefully removing all the scum and fat. If the broth should boil away too much, add the requisite quantity of boiling water to make ten pints, and let it boil fifteen minutes longer.

14. Beef Tea.—Beef, 7 1/2 lbs.; Salt, 1 oz.

Directions.—The Beef should be lean and juicy, and cut into small pieces. Put it into one and a half gallons of cold water, with the salt. Let it boil gently three hours. If it should boil away too fast, add the requisite quantity of boiling water and let it boil fifteen minutes longer. When done it should measure 7 1/2 pints. Set it aside to cool. Remove every particle of grease, and heat when required.

15. Stewed Oysters.—Oysters, 2 1/2 pints; Milk, 1 1/2 pints.

Directions.—Strain off the juice and put it into a saucepan. When near boiling, put in the Oysters, and sprinkle in a little salt. Let the Oysters get thoroughly heated. Add the milk, which must be boiling, and a little pepper.

16. Boiled Rice.—Rice, 10 oz.; Salt, 1/2 oz.; Water, 2 1/2 pints.

Directions.—Put the salt and water into a stewpan. When boiling, add the Rice, previously thoroughly washed. Boil for ten minutes, or until each grain becomes soft. Drain it on a colander. Slightly grease the stewpan with clarified drippings or lard. Put back the Rice. Let it swell slowly near the fire, or in a slow oven, for about twenty minutes, until the grains are well separated.

17. Corn Starch.—Corn Starch, 5 oz.; Milk, 2 1/2 pints; Water, 10 oz.

Directions.—Mix the Corn Starch into a smooth paste with cold water. The milk and water must be boiling, to which add a little salt. Stir in the Corn Starch. Let it boil three or five minutes.

18. Mashed Potatoes.—Potatoes, 3 1/2 lbs.; Salt, 1/2 oz.

Directions.—Wash the Potatoes thoroughly. Put them into enough boiling water to cover them. Let them boil twenty minutes or half an hour. Drain off the water, and let them remain at the fire a few minutes. Peel and mash them well, adding a little milk, if possible, about 10 ounces.

19. Broiled Ham.—Ham, 2 1/2 lbs.

Directions.—Warm the gridiron. Cut the Ham into slices of about four ounces each. Broil them very quickly over a hot fire.

ORDERS.

The regular diets in all General Hospitals of the United States Army shall conform to this Diet Table, where it is possible.

The Hospital Fund is to be expended: 1st. For articles of subsistence, supplied by this

... For articles of subsistence
apparatus for preparing and serving

If the Hospital Fund thus applied proves inadequate to the support of patients according to this Diet Table, the Principal Medical Officer of a General Hospital is authorized to diminish, or, if need be, to discontinue the butter and milkings all owed to patients on Food Diet II, with this authorized reduction in the allowance, the Hospital Fund still proves sufficient, the Principal Medical Officer will be governed by the following rule: When fresh or preserved fruits, milk, cream, or eggs, cannot be procured with the Hospital Fund, they may be purchased by the Surgeon in charge, on account of the Hospital.

huge, on special authority, to be
ch. quantities to be used.

When fresh vegetables cannot be procured, desiccated vegetable may be issued.

of mixed vegetables is, cm cc, 1.5; of mixed vegetables 2, cm cc, 1

WILLIAM A. HAMMOND,
Surgeon General U. S. Army.

MUSTER AND PAY ROLL

OF THE

Hospital Corps employed at the General Hospital,

FOR THE

Month of , 186

(FORM No. 22.)

OBSERVE THE FOLLOWING DIRECTIONS.

Send with the "*Original*" one complete set of Vouchers, as required by Army Regulations.

Keep with the "*Duplicate to be retained*" a complete set of Vouchers, exact duplicates of those transmitted with the "*Original*."

Articles "*Lost or destroyed by unavoidable accident*" must be accounted for by a certificate from the medical officer responsible for the same, setting forth fully the circumstances under which such loss or destruction occurred—and this should be accompanied by a certificate of at least one other commissioned officer, or by a statement supported by an affidavit of any other non-interested party as evidence in the case. Such certificates and statements must be forwarded through the Medical Director for remark.

No article can be returned as "*Worn out and unfit for use*" until after inspection and condemnation by a properly authorized officer.

Articles destroyed to prevent contagion must be accounted for by a certificate of the officer responsible, setting forth that they were destroyed in compliance with Paragraph 2309 of the Regulations.

Bedding and other property will not, under any circumstances, be used for other than hospital purposes, and within the hospital to which it has been supplied.

Mercurial ointment, in 1-lb. jars	lb.	Tincture of cinicifuga (racemosa), in 8-oz. bottles	oz.
Mercury (metallic), in bottles	oz.	Tincture of guaiac, ammoniated, in 8-oz. bottles	oz.
Mercury, ointment of nitrate of (citrine ointment), in 4-oz. covered jars	oz.	Tincture of opium, deodorized, in 8-oz. bottles	oz.
Mercury, oleate of (10 per cent.), in 1-lb. bottles	oz.	Tincture of sanguinaria, in 8-oz. bottles	oz.
Mercury, red oxide of, in 1-oz. bottles	oz.	Tincture of serpentaria, in 4-oz. bottles	oz.
Oil, croton, in 1-oz. bottles	oz.	Tincture of veratrum viride, in 4-oz. bottles	oz.
Oil of anise, in 1-oz. bottles	oz.	Tincture, Warburg's, in 1-lb. bottles	oz.
Oil of cinnamon, in 1-oz. bottles	oz.	Tolu, balsam of, in 8-oz. bottles	oz.
Oil of cloves, in 1-oz. bottles	oz.	Wax, white, in paper	oz.
Oil of lemon, in 2-oz. bottles	oz.	Wax, yellow, in paper	oz.
Oil of male fern, ethereal, in 1-oz. bottles	oz.	Zinc, acetate of, in 2-oz. bottles	oz.
Oil of rosemary, in 1-oz. bottles	oz.	Zinc, solution of chloride of, in 1-lb. g. s. bottles	lb.
Oil of santal (sandal wood), in 4-oz. bottles	oz.	Zinc, oleate of, in 8-oz. bottles	oz.
Oil of theobroma (butter of cacao), in 8-oz. tins	oz.	HOSPITAL STORES.	
Opium, powdered, in 8-oz. bottles	oz.		
Pills of arsenious acid ($\frac{1}{8}$ of a grain each), in bottles	no.	Arrow-root, in tins	lb.
Pills of iodide of arsenic ($\frac{1}{8}$ of a grain each), in bottles	no.	Beef-extract	lb.
Pills of copaiba, compound, in bottles	no.	Brandy, in 32-oz. bottles	bott.
Pills of sulphate of quinine, 3 grains each (100 in a bottle)	no.	Candles	lb.
Plaster, belladonna, in tins	yds.	Chocolate, in $\frac{1}{2}$ -lb. cakes	lb.
Plaster, porous	no.	Cinnamon (ground), in 8-oz. bottles	oz.
Podophyllum, resin, in 1-oz. bottles	oz.	Corn-starch, in 1-lb. packages	lb.
Potassa (caustic), in 1-oz. bottles	oz.	Farina, in 1-lb. packages	lb.
Potassium, cyanide of, in $\frac{1}{8}$ -oz. bottles	oz.	Gelatin, in 2-oz. packages	oz.
Potassium, nitrate of (powdered), in 1-lb. bottles	oz.	Ginger (ground), in 1-lb. bottles	oz.
Potassium, permanganate of, in 2-oz. bottles	oz.	Lye, concentrated	lb.
Rhubarb (powdered), in 4-oz. bottles	oz.	Meat-juice, Valentine's	bott.
Santonin, in 1-oz. bottles	oz.	Milk, condensed	lb.
Soda, chlorinated, solution of, in 2-quart bottles	bott.	Nutmegs, in 2-oz. bottles	oz.
Sodium, bromide of, in 1-lb. bottles	oz.	Pepper, black (ground), in 8-oz. bottles	oz.
Sodium, salicylate of, in 8-oz. bottles	oz.	Pepper, cayenne (ground), in 8-oz. bottles	oz.
Sodium, sulphite of, in 8-oz. bottles	oz.	Soap, common, in bars	lb.
Strychnine, sulphate of, in $\frac{1}{8}$ -oz. bottles	oz.	Soap-powder, in 1-lb. packages	pkgs.
Sugar of milk (powdered), in 8-oz. bottles	oz.	Sugar, white	lb.
Sulphur (in roll)	lb.	Tapioca, in tins	lb.
		Tea, black, in tins or original chests	lb.
		Whisky, in 32-oz. bottles	bott.

ARTICLES.	QUANTITY.	ARTICLES.	QUANTITY.
Wine, sherry, in 32-oz. bottles	bott.	Rubber sheeting, white	yds.
ARTICLES EXPENDABLE.		Silk, gray, for shades	yds.
INSTRUMENTS.		Silk, oiled, in 5-yard pieces	yds.
Cupping-glasses, assorted sizes	no.	Splints	sets.
Nipple shields	no.	Splints, anterior, Smith's	no.
Probangs	no.	Splints, felt for	pieces.
Syringes, penis, glass, in case	no.	Sponge, fine, small pieces	oz.
Syringes, rubber, self-injecting	no.	Stenta book	yds.
Syringes, vagina, glass	no.	Tape, cotton	pieces.
Thermometers, clinical	no.	Thread, cotton, spools, assorted	no.
Trusses, single	no.	Thread, linen, unbleached	oz.
Trusses, double	no.	Towels	doz.
DRESSINGS.		Towels, roller	doz.
Antiseptic dressings for use with spray apparatus: Gauze, antiseptic, 25 yards; gauze, hygroscopic, 25 yards; jute, salicylated, 5 lbs.; tissue, gutta-percha (antiseptic), 3 yards	set.	Tubes, drainage, 3 sizes, 1 yard each	yds.
Bandages, roller, unbleached and unsized, assorted, in a paste-board box: 1 dozen, 1 inch by 1 yard; 2 dozen, 2 inches by 3 yards; 2 dozen, 2½ inches by 3 yards; 1 dozen, 3 inches by 4 yards; half dozen, 3½ inches by 5 yards; 1 dozen, 4 inches by 6 yards; half dozen, 4 inches by 8 yards	doz.	Twine, half coarse	oz.
Bandages, suspensory	no.	STATIONERY.	
Chamois skins	no.	Blank books, cap, half-bound, 4 quires	no.
Cotton, absorbent	lb.	Blank books, octavo, 4 quires, with flexible covers	no.
Cotton, styptic, in 1-oz. packages	oz.	Blocks, memorandum	no.
Cotton-bats	lb.	Elastic bands, assorted, gross	no.
Cotton-wadding	sheets.	Envelopes, official, large	no.
Flannel, red, all wool	yds.	Envelopes, official, letter	no.
Ligature, catgut for, carbolized, three sizes, in bottles	bott.	Envelopes, official, note	no.
Ligature, silk for	oz.	India rubber	pieces.
Lint, patent	lb.	Ink, black, in 2-oz. bottles	bott.
Muslin, unbleached, unsized, 1 yard wide	yds.	Ink, carmine, in 1-oz. bottles	bott.
Needles, assorted	papers.	Mucilage	bott.
Needles, upholsterers'	no.	Paper, blotting	qrs.
Oakum or marine lint	lb.	Paper, writing, legal-cap	qrs.
Pencils, hair, in vials	no.	Paper, writing, letter	qrs.
Pins, assorted	papers.	Paper, writing, note	qrs.
Pins, safety	doz.	Pencils, lead	no.
Plaster, adhesive, India-rubber	yds.	Pen-holders	no.
Plaster, isinglass, 1 yard, in case	yds.	Pens, steel	no.
Plaster of Paris, in 5-lb. tins	lb.	Sealing-wax	sticks.
		Tape, red	pieces.
		MISCELLANEOUS.	
		Bowls, soap, delf	no.
		Bowls, wash, delf (for office)	no.
		Boxes, ointment, impervious	doz.
		Boxes, pill, paper	doz.

MEDICINES.			
REGULAR LIST.			
Acacia (Gum Arabic), in 8-oz. bottles.....oz.		Extract of ipecac, fluid, in 8-oz. bottles.....oz.	
Acacia (Gum Arabic), powdered, in 1-lb. bottles.....oz.		Extract of nux vomica (alcoholic, powdered), in 2-oz. bottles ..oz.	
Acid, acetic, in 1-lb. bottles.....oz.		Extract of valerian, fluid, in 1-lb. bottles.....oz.	
Acid, carbolic (crystallized, pure), in 1-lb. g. s. bottles.....oz.		Flaxseed, in 8-lb. tins.....lb.	
Acid, carbolic, 95 per cent. (for disinfection), in 1-lb. bottles...lb.		Flaxseed meal, in 8-lb. tins.....lb.	
Acid, citric, in 1-lb. bottles.....oz.		Glycerin, in 1-lb. bottles.....oz.	
Acid, hydrochloric, in 1-lb. g. s. bottles.....oz.		Glycyrrhiza, compound powder of, in 8-oz. bottles.....oz.	
Acid, nitric, in 8. oz g. s. bottles.....oz.		Iodine, in 1-oz. g. s. bottles.....oz.	
Acid, sulphuric, in 8-oz. g. s. bottles.....oz.		Iodoform, in 2-oz. bottles.....oz.	
Acid, sulphuric, aromatic, in 1-lb. g. s. bottles.....oz.		Ipecac (powdered), in 8-oz. bottles.....oz.	
Acid, tannic, in 1-oz. bottles.....oz.		Ipecac and opium, powder of (Dover's powder), in 1-lb. bottles..oz.	
Acid, tartaric (powdered), in 1-lb. bottles.....oz.		Iron, subsulphate of, in 2-oz. bottles.....oz.	
Alcohol, in 32-oz. bottles.....bott.		Iron, sulphate of (commercial), in 25-lb. wooden boxes.....lb.	
Alum, in 1-lb. bottles.....oz.		Iron, syrup of iodide of, in 1-lb. bottles.....oz.	
Ammonia, aromatic spirit of, in 1-lb. bottles.....oz.		Iron and potassium, tartrate of, in 8-oz. bottles.....oz.	
Ammonia, stronger water of, in 1-lb. g. s. bottles.....oz.		Iron, solution of tersulphate of, in 1-lb. bottles.....lb.	
Ammonium, carbonate of, in 1-lb. bottles.....oz.		Lead, acetate of, in 1-lb. bottles.....oz.	
Ammonium, chloride of, in 1-lb. bottles.....oz.		Magnesium, carbonate of, in 2-oz. papers.....oz.	
Arsenite of potassium, solution of (Fowler's solution), in 8-oz. botts.oz.		Magnesium, sulphate of, in 8-lb. tins.....lb.	
Atropine, sulphate of, in $\frac{1}{4}$ -oz. g. s. bottles.....oz.		Mercury, corrosive chloride of (corrosive sublimate), in 1-oz. bottles.oz.	
Bismuth, subnitrate of, in 1-lb. bottles.....oz.		Mercury, mass of (blue pill), in 8-oz. covered jars.....oz.	
Camphor (refined), in 8-oz. bottles.....oz.		Mercury, mild chloride of (calomel), in 4-oz. bottles.....oz.	
Chalk, prepared, in 1-lb. bottles.....oz.		Mercury with chalk, in 4-oz. bottles.....oz.	
Chloroform, purified, in 1-lb. g. s. bottles.....oz.		Morphine, acetate of, in $\frac{1}{4}$ -oz. bottles.....oz.	
Copaiba, in 1-lb. bottles.....oz.		Morphine, sulphate of, in $\frac{1}{4}$ -oz. bottles.....oz.	
Ether, compound spirit of (Hoffman's anodyne), in 1-lb. bottles...oz.		Mustard, black (ground), in 1-lb. tins.....lb.	
Ether, spirit of nitrous (sweet spirit of nitre), in 1-lb. bottles...oz.		Oil, castor, in 1-quart bottles.....bott.	
Ether, stronger, for anaesthesia, in 1-lb. tins.....oz.		Oil, cod-liver, in 1-pint bottles.....bott.	
Extract of belladonna, alcoholic, in 1-oz. w. m. bottles.....oz.		Oil, olive, in 1-pint bottles.....bott.	
Extract of buchu, fluid, in 1-lb. bottles.....oz.		Oil of peppermint, in 4-oz. bottles.....oz.	
Extract of ergot, fluid, in 8-oz. bottles.....oz.		Oil of turpentine, in 1-quart bottles.....bott.	
Extract of ginger, fluid, in 1-lb. bottles.....oz.		Pepsin (lactated), in 2-oz. bottles.....oz.	
Extract of hyoscyamus, alcoholic, in 1-oz. w. m. bottles.....oz.		Petrolatum, 105° F., in 1-lb. tins.....lb.	
		Petrolatum, 120° F., in 1-lb. tins.....lb.	
		Pills, compound cathartic, in bottles.....no.

Potassium, acetate of, in 1-lb. bottles.....	oz.	Amyl, nitrite of (5-drop pearls), in boxes	doz.
Potassium, bicarbonate of, in 1-lb. bottles	oz.	Antimony and potassium, tartrate of (tartar emetic), in 1-oz. botts.....	oz.
Potassium, bitartrate of (powdered), in 1-lb. bottles.....	oz.	Apomorphine, hydrochlorate of, in $\frac{1}{4}$ -oz. bottles	oz.
Potassium, bichromate of, in 1-lb. bottles.....	oz.	Arsenic and mercury, solution of iodide of (Donovan's solution), in 1-oz. bottles.....	oz.
Potassium, bromide of, in 1-lb. bottles	oz.	Brayera (kooso, powdered), in 8-oz. bottles.....	oz.
Potassium, chlorate of (powdered), in 1-lb. bottles	oz.	Bromine, in 1-oz. g. s. bottles	oz.
Potassium, iodide of, in 1-lb. bottles	oz.	Capsules, gelatin, in boxes of 100 each	boxes.
Potassium and sodium, tartrate of (powdered), in 1-lb. bottles ..	oz.	Cerate, resin, in 1-lb. tins	lb.
Quinine, sulphate of, in 1-oz. bottles	oz.	Chloral, in 1-oz. g. s. bottles	oz.
Silver, nitrate of (in crystals), in 2-oz. bottles	oz.	Chrysarobin, in 1-oz. bottles.....	oz.
Silver, nitrate of, molded, in 1-oz. bottles	oz.	Cinchona (powdered), in 1-lb. bottles.....	oz.
Soap, castile	lb.	Codeine, in $\frac{1}{4}$ -oz. bottles.....	oz.
Sodium, bicarbonate of, in 1-lb. bottles.....	oz.	Collodion, in 2-oz. bottles	oz.
Sodium, borate of (powdered), in 1-lb. bottles	oz.	Copper, sulphate of, in 4-oz. bottles	oz.
Squill, syrup of, in 1-lb. bottles	lb.	Creasote, in 1-oz. g. s. bottles	oz.
Tincture of aconite (root), in 8-oz. bottles	oz.	Digitalis (leaves), in 1-oz. packages	oz.
Tincture of arnica flowers, in 1-lb. bottles.....	oz.	Ergotin, in 1-oz. bottles.....	oz.
Tincture of chloride of iron, in 1-lb. g. s. bottles	oz.	Extract of cascara sagrada, fluid, in 4-oz. bottles.....	oz.
Tincture of cinchona, compound, in 1-lb. bottles.....	oz.	Extract of castanea, fluid, in 1-lb. bottles.....	oz.
Tincture of digitalis, in 4-oz. bottles	oz.	Extract of colchicum seed, fluid, in 4-oz. bottles	oz.
Tincture of gelsemium, in 4-oz. bottles.....	oz.	Extract of colocynth, compound (powdered), in 8-oz. bottles ..	oz.
Tincture of gentian, compound, in 1-lb. bottles.....	oz.	Extract of eucalyptus, fluid, in 1-lb. bottles	oz.
Tincture of myrrh, in 1-lb. bottles.....	oz.	Extract of glycyrrhiza, in paper	oz.
Tincture of opium (laudanum), in 1-lb. bottles	oz.	Extract of hamamelis, fluid, in 1-lb. bottles	oz.
Tincture of opium, camphorated (paregoric), in 1-lb. bottles....	oz.	Extract of Indian cannabis, fluid, in 8-oz. bottles	oz.
Vaccine virus		Extract of pilocarpus (jaborandi), fluid, in 4-oz. bottles.....	oz.
Zinc, oxide of, in 8-oz. bottles.....	oz.	Extract of physostigma (calabar bean), in $\frac{1}{4}$ -oz. bottles.....	oz.
Zinc, sulphate of, in 8-oz. bottles	oz.	Extract of rhubarb, fluid, in 8-oz. bottles.....	oz.
MEDICINES.		Extract of sarsaparilla, fluid, in 1-lb. bottles	oz.
SUPPLEMENTARY LIST.		Extract of taraxacum, fluid, in 1-lb. bottles	oz.
Acid, arsenious, in 1-oz. bottles	oz.	Extract of wild cherry (bark), fluid, in 1-lb. bottles....	oz.
Acid, benzoic, in 1-oz. bottles.....	oz.	Insect powder, as required	lb.
Acid, gallic, in 1-oz. bottles.....	oz.	Iron and ammonium, citrate of, in 8-oz. bottles	oz.
Acid, hydrobromic, diluted, in 4-oz. bottles.....	oz.	Iron and quinine, citrate of, in 1-oz. bottles.....	oz.

Mercury, oleate of (10 per cent.), in 1-lb. bottles	oz.	Tincture of sanguinaria, in 8-oz. bottles	oz.
Mercury, red oxide of, in 1-oz. bottles	oz.	Tincture of serpentaria, in 4-oz. bottles	oz.
Oil, croton, in 1-oz. bottles	oz.	Tincture of veratrum viride, in 4-oz. bottles	oz.
Oil of anise, in 1-oz. bottles	oz.	Tincture, Warburg's, in 1-lb. bottles	oz.
Oil of cinnamon, in 1-oz. bottles	oz.	Tolu, balsam of, in 8-oz. bottles	oz.
Oil of cloves, in 1-oz. bottles	oz.	Wax, white, in paper	oz.
Oil of lemon, in 2-oz. bottles	oz.	Wax, yellow, in paper	oz.
Oil of male fern, ethereal, in 1-oz. bottles	oz.	Zinc, acetate of, in 2-oz. bottles	oz.
Oil of rosemary, in 1-oz. bottles	oz.	Zinc, solution of chloride of, in 1-lb. g. s. bottles	lb.
Oil of santal (sandal wood), in 4-oz. bottles	oz.	Zinc, oleate of, in 8-oz. bottles	oz.
Oil of theobroma (butter of cacao), in 8-oz. tins	oz.	HOSPITAL STORES.	
Opium, powdered, in 8-oz. bottles	oz.	Arrow-root, in tins	lb.
Pills of arsenious acid ($\frac{1}{30}$ of a grain each), in bottles	no.	Beef-extract	lb.
Pills of iodide of arsenic ($\frac{1}{100}$ of a grain each), in bottles	no.	Brandy, in 32-oz. bottles	bott.
Pills of copaiba, compound, in bottles	no.	Candles	lb.
Pills of sulphate of quinine, 3 grains each (100 in a bottle)	no.	Chocolate, in $\frac{1}{2}$ -lb. cakes	lb.
Plaster, belladonna, in tins	yds.	Cinnamon (ground), in 8-oz. bottles	oz.
Plaster, porous	no.	Corn-starch, in 1-lb. packages	lb.
Podophyllum, resin, in 1-oz. bottles	oz.	Farina, in 1-lb. packages	lb.
Potassa (caustic), in 1-oz. bottles	oz.	Gelatin, in 2-oz. packages	oz.
Potassium, cyanide of, in $\frac{1}{8}$ -oz. bottles	oz.	Ginger (ground), in 1-lb. bottles	oz.
Potassium, nitrate of (powdered), in 1-lb. bottles	oz.	Lye, concentrated	lb.
Potassium, permanganate of, in 2-oz. bottles	oz.	Meat-juice, Valentine's	bott.
Rhubarb (powdered), in 4-oz. bottles	oz.	Milk, condensed	lb.
Santonin, in 1-oz. bottles	oz.	Nutmegs, in 2-oz. bottles	oz.
Soda, chlorinated, solution of, in 2-quart bottles	bott.	Pepper, black (ground), in 8-oz. bottles	oz.
Sodium, bromide of, in 1-lb. bottles	oz.	Pepper, cayenne (ground), in 8-oz. bottles	oz.
Sodium, salicylate of, in 8-oz. bottles	oz.	Soap, common, in bars	lb.
Sodium, sulphite of, in 8-oz. bottles	oz.	Soap-powder, in 1-lb. packages	pkgs.
Strychnine, sulphate of, in $\frac{1}{8}$ -oz. bottles	oz.	Sugar, white	lb.
Sugar of milk (powdered), in 8-oz. bottles	oz.	Tapioca, in tins	lb.
Sulphur (in roll)	lb.	Tea, black, in tins or original chests	lb.
		Whisky, in 32-oz. bottles	bott.

Number of Patients on Full Diet in Ward.....

“ “ “ Mess-Room

“ “ Special Diet

" Detailed Men in Ward

TOTAL

Act. Asst. Surg., U. S. A., in charge of ward

All Stimulants and Lemons shall be issued from the dispensary.

Medical Officers will prescribe these diets at their evening visits, and transmit the requisitions to the office of the Surgeon in charge for approval by 7 o'clock, P. M., after which they will be returned to the Wards to regulate the distribution of food.

These blanks will be filled out in the handwriting of the Surgeon in charge of the Ward, or no issues will be made. Any Wardmaster or nurse who shall change, or in any way mutilate this list, will be punished.

No more than five articles of food will be prescribed for Breakfast.

“	“	five	“	“	“	“	Dinner.
“	“	four	“	“	“	“	Supper.

Medical Officers can add other articles of diet when considered indispensably necessary for the welfare of the patient, subject to the approval of the Surgeon in charge.

(FORM 42.)

Nomenclature to be followed in making the Monthly Report of Sick and Wounded. (See Form 41, Direction 1.) This nomenclature will be strictly observed, except when diseases occur which are not provided for by it. In such cases the Surgeon must state, under the head of "Remarks," his reason for departing from the Form.

CLASS I. ZYMOTIC DISEASES.

ORDER 1. MIASMATIC DISEASES.

Typhoid fever.
Typhus fever.
Typho-Malarial fever.
Yellow fever.
Remittent fever.
Quotidian Intermittent fever.
Tertian Intermittent fever.
Quartan Intermittent fever.
Congestive Intermittent fever.
Acute diarrhoea.
Chronic diarrhoea.
Acute dysentery.
Chronic dysentery.
Epidemic cholera.
Erysipelas.*
Hospital gangrene.*
Pyæmia.*
Small-pox.
Varioloid.
Chickenpox.
Measles.
Scarlet fever.
Mumps.
Tonsillitis. (Quinsy.)
Diphtheria.
Epidemic catarrh. (Influenza.)
Whooping cough.
Cerebro-spinal Meningitis.

ORDER 2. EXTHETIC DISEASES.

Primary syphilis.
Constitutional syphilis.
Gonorrhœa.
Gonorrhœal orchitis.
Gonorrhœal ophthalmia.
Stricture of urethra. (Gonorrhœal.)
Glanders.
Hydrophobia.
Bite of serpents.
Malignant pustule.

ORDER 3. DIETIC DISEASES.

Starvation.
Scurvy.
Purpura.
Inebriation.
Delirium tremens.
Chronic alcoholism.

CLASS II. CONSTITUTIONAL DISEASES.

ORDER 1. DIATHETIC DISEASES.

Gout.
Acute rheumatism.
Chronic rheumatism.
Anæmia.
Dropsy. (When not a mere symptom of disease of heart, liver or kidneys.)
Cancer.
Epithelioma.
Tumors.
Dry gangrene.

ORDER 2. TUBERCULAR DISEASES.

Consumption.
Scrofula.

CLASS III. PARASITIC DISEASES.

Itch.
Tape worms.

Lumbricoid worms.
Ascarides.
Trichiniasis.

CLASS IV. LOCAL DISEASES.

ORDER 1. DISEASES OF THE NERVOUS SYSTEM.

Apoplexy.
Convulsions.
Chorea.
Epilepsy.
Headache.
Insanity.
Inflammation of the brain.
Inflammation of the membranes of the brain.
Inflammation of the spinal cord.
Notalgia.
Neuralgia.
Paralysis.
Sunstroke.
Tetanus.*

ORDER 2. DISEASES OF THE EYE.

Conjunctivitis.
Iritis.
Cataract.
Amblyopia.
Night blindness.

ORDER 3. DISEASES OF THE EAR.

Otorrhœa.
Inflammation of the internal ear.
Deafness.

ORDER 4. DISEASES OF THE ORGANS OF CIRCULATION.

Inflammation of pericardium.
Dropsy of pericardium.
Inflammation of endocardium.
Hypertrophy of heart.
Valvular disease of heart.
Dropsy from heart disease.
Aneurism.
Phlebitis.
Varicose veins.

ORDER 5. DISEASES OF THE RESPIRATORY ORGANS.

Asthma.
Catarrh.
Acute bronchitis.
Chronic bronchitis.
Epistaxis.
Inflammation of larynx.
Inflammation of lungs.
Inflammation of pleura.
Dropsy of the chest.

ORDER 6. DISEASES OF THE DIGESTIVE ORGANS.

Colic.
Constipation.
Cholera morbus.
Dyspepsia.
Inflammation of stomach.
Inflammation of bowels.
Inflammation of peritoneum.
Ascites.
Hemorrhage from stomach.
Hemorrhage from bowels.
Fistula in ano.
Piles.
Prolapsus ani.

Femoral hernia.
Inguinal hernia.
Acute inflammation of liver.
Chronic inflammation of liver.
Cirrhosis of liver.
Dropsy from hepatic disease.
Jaundice.
Biliary calculi.
Inflammation of the spleen.
Enlarged spleen.

ORDER 7. DISEASES OF URINARY AND GENITAL ORGANS.

Inflammation of kidneys.
Bright's disease.
Diabetes.
Gravel.
Calculus.
Inflammation of bladder.
Incontinence of urine.
Retention of urine.
Inflammation of testicle (not gonorrhœal).
Hydrocele.
Varicocele.

ORDER 8. DISEASES OF THE BONES AND JOINTS.

Inflammation of periosteum.
Inflammation of bones.
Caries.
Necrosis.
Inflammation of joints.
Anchylosis.

ORDER 9. DISEASES OF THE INTEGUMENTARY SYSTEM.

Abscess.
Boil.
Carbuncle.
Ulcers.
Whitlow.
Skin diseases (Not including syphilitic skin affections, or itch).

CLASS V. VIOLENT DISEASES AND DEATHS.

ORDER 1. WOUNDS, INJURIES AND ACCIDENTS.

Burns and Scalds.
Contusions.
Concussion of the brain.
Drowning.
Sprains.
Dislocations.
Frostbite.
Simple fractures. (Not gunshot.)
Compound fractures. (Not gunshot.)
Gunshot wounds.
Incised wounds.
Lacerated wounds.
Punctured wounds.
Poisoning (by †)

ORDER 2. HOMICIDE.

ORDER 3. SUICIDE.

ORDER 4. EXECUTION OF SENTENCE.

Hanging.
Shooting.

*When these affections occur as complications of gunshot wounds, they will not be reported as new cases; and in such instances, should they terminate fatally, the deaths will be set down opposite "Gunshot Wounds." The details of all such cases will, of course, be reported in the Quarterly Report of Wounds and Operations.

†Here state cause of poisoning.

Before the fifth day of each month one copy will be forwarded to the Surgeon General direct and one to the Medical Director of the Department.

No. of Sheet, 2

CONSOLIDATED REPORT OF THE MEDICAL DEPARTMENT AT

MOVEMENT OF TROOPS.

(1) When in the field, give the location of command on the first and last day of the month, (2) the route taken, (3) number of miles traveled, and (4) method of conveyance; also (5) the arrival of transient troops and their destination. (6) Note changes in the composition of the command, and (7) changes of medical officers. (8) If a hospital is opened or closed during the month, state order and date. (9) In case of closure, state disposition of the records both on the Report and by immediate letter to the Medical Director and Surgeon General.

Month of , 188
By

Surgeon, U. S. Army.

COMMAND.

[Here specify legibly the name of the regiment and the letters of the companies comprising the command, together with the brigade, division, army, or department in which it is serving.]

Aggregate number of Troops present on each day of the month. Number excused from duty on account of sickness for each day of the month.

Day of month.	No. officers.	No. enlisted men.	TOTAL.	No. officers.	No. enlisted men.	TOTAL.

REGISTER OF DEATHS AMONG CIVILIANS WITH THE COMMAND DURING THE MONTH.

[The information called for as to the diseases, deaths, and births of civilians is required to perfect the records of vital statistics, etc., in the Surgeon General's Office, and for this reason also Special Reports of interesting cases and autopsies will be forwarded.]

NAME.	AGE.	SEX.	RACE.	CAUSE.	DATE.
-------	------	------	-------	--------	-------

REMARKS.—Civilians treated in hospital during the month, with name and complaint of each.

[Mean strength and totals will be computed at the Surgeon General's Office.]

NOTE 1. Patients remaining under treatment at the end of last month will be brought forward and entered by name, with their proper numbers and dates of admission, on this Register. 2. They will be placed at the head of the page and separated from the others by a broad red line. 3. Facts once noted in columns VI, VII, VIII, IX, X, and XI need not be repeated, except in cases of Death or Discharge. 4. Names of patients will be placed on the double-ruled lines where matter to be entered in columns XI, XII, and XV is at all extensive. 5. The names of officers and enlisted men who are excused from any part of their military duty on account of sickness or injury will be entered on this Register. Enlisted men employed as cooks or attendants in hospital, when under treatment for disease or injury, must appear upon this Register as in the case of other enlisted men, and the fact of their employment as cooks and nurses in hospital noted. 6. Separate Reports will be made for White and Black Troops and for organized Companies of Indian Scouts.

, for the month of _____, 188 .

Transferred, No. _____; Discharged, No. _____; Deserted, No. _____; Furloughed, No. _____; Died, No. _____; Total, No. _____. Remaining under treatment, No. _____.

NOTE 1. Cases of wounds and injuries will be underscored by red lines. 2. In all cases of discharge for disability, enter on last page under "General Remarks" transcripts from the certificate both of the company commander and the medical officer. 3. Discharges on Surgeon's certificate of disability and deaths occurring *among those not on sick report* will also be reported; in each case specify the manner in which the injury or disease originated, when known. 4. In every case of death of an officer, whether on duty or not, a special report is to be made to the Surgeon General, and if with the command, his name will be entered upon this Register. 5. In every case of death or discharge, including patient's discharge by expiration of term of service, by sentence, by order, or for disability, it should be stated whether the disease or injury originated in the line of duty. 6. Deaths of ex-officers and soldiers, if with the command, will be entered upon this Register with the proper remarks, and a statement as to whether cause of death originated in the service and in the line of duty. 7. When it is necessary to use more than one sheet, those additional will have the headings properly filled. The sheets will be consecutively numbered and stitched to each other through the binding space.

CONSOLIDATED REPORT OF MEDICAL DEPARTMENT—Continued.

REGISTER OF MARRIAGES DURING THE MONTH.

REGISTER OF BIRTHS DURING THE MONTH. [3. To establish the legal rights of the heirs of officers and enlisted men of the Army, the Register of Marriages, Births, and Deaths should be kept with the utmost care. 4. No erasures will be made. In case errors occur an explanation, signed by the medical officer, must be entered in the remarks. 5. Record also all civilian births occurring on the military reservation.

GENERAL REMARKS.

6. Here note any matters of interest pertaining to the medical, hygienic, or sanitary condition of the troops and post, prevalent diseases of vicinity, etc., etc. 7. Reports of cases will not be entered in remarks, but will be made separately.

I CERTIFY that the foregoing entries are correct, and that an accurate copy of this Register and Report is on file at this post.

The Register covers sheets, and is accompanied by the following special reports, viz:

Surgeon, U. S. Army.

The signature of the medical officer will be attached to every sheet.

DO NOT WRITE ON THE MARGINS OR BINDING SPACE.

(FORM 44.)

NOMENCLATURE to be followed in making the Monthly Report of Sick and Wounded. (See Form 41, Direction 1.) This nomenclature will be strictly observed, except when diseases occur which are not provided for by it. In such cases the surgeon must state, under the head of "Remarks," his reason for departing from the Form.

<p>CLASS I. ZYMOTIC DISEASES.</p> <p>ORDER I. MIASMATIC DISEASES.</p> <p>Typhoid fever. Typhus fever. Typho-malarial fever. Yellow fever. Remittent fever. Quotidian intermittent fever. POST SURGEON,

Fort

Requisition for Blanks.

_____, of Captain _____
 _____, (_____) of the _____ Regiment of _____
 _____, was enlisted by _____, of
 the _____ Regiment of _____ at _____
 on the _____ day of _____, 188____, to serve _____ years; he was born
 in _____ in the State of _____, was _____ years of age
 when enlisted, _____ feet _____ inches high, _____ complexion, _____ eyes,
 _____ hair, and by occupation a _____. Recommended for
 discharge on account of: (See Note 1. *)

Date:

Commanding

I certify that I have carefully examined the above-named soldier and find him incapable of performing the duties of a soldier because of (See Note 2. *)

Surgeon.

Discharged, this _____ day of _____, 188 _____, at _____

Commanding Post.

The soldier desires to be addressed at Town _____, County _____, State _____.

* Which must be strictly complied with.

NOTE 1.

The troop, battery, or company commander will here add a statement of all the *facts* known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the *facts* are not known to the soldier's immediate commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a *probable* case for *pension, special care* must be taken to state the *degree* of disability—as *3, 4, &c., &c.*; to describe particularly the disability, wound, or disease, the extent of which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge, and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after a sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in *duplicate*, by the soldier's troop, battery, or company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the post commander, who will forward them, with his action in regard thereon, through the proper channel, to the department commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the post commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; see that the soldier is furnished with the proper final statements in duplicate, and forward both of these certificates *direct* to the Adjutant General, United States Army, at Washington, D. C.; they will not, under any circumstances, be given into the hands of the soldier.

FORM OF CERTIFICATE

FOR

ABSENCE ON ACCOUNT OF SICKNESS.

....., of the Regiment of
, having applied for a certificate to cover absence from
 his command, or duty, I do hereby certify that I have carefully examined this officer, and find that
*[Here the nature of the disease, wound, or disability is to be fully stated, and the period during which
 the officer has suffered under its effects.]*

and that in consequence thereof he is, in my opinion, unfit for duty, and not able to travel without
 endangering his ultimate cure. I further declare my belief that he will not be able to resume his duties
 in a less period than *[Here state candidly and explicitly the period which will probably elapse before the
 officer will be able to resume his duties. When there is no reason to expect recovery, or when the prospect
 of recovery is remote or uncertain, it must be so stated.]*

* Date and source of original leave,

Post Office address,

Dated at, this day of, 188 ..

[Signature.]

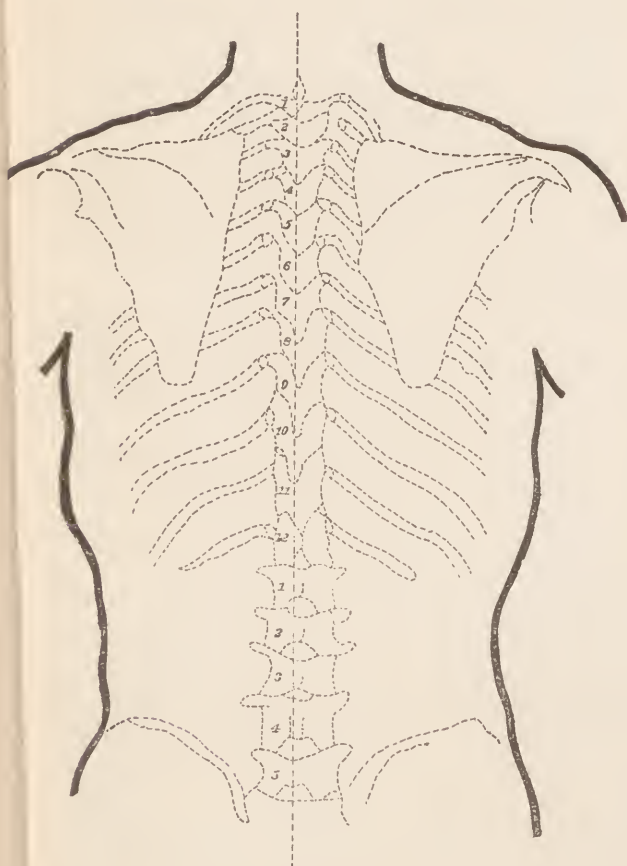

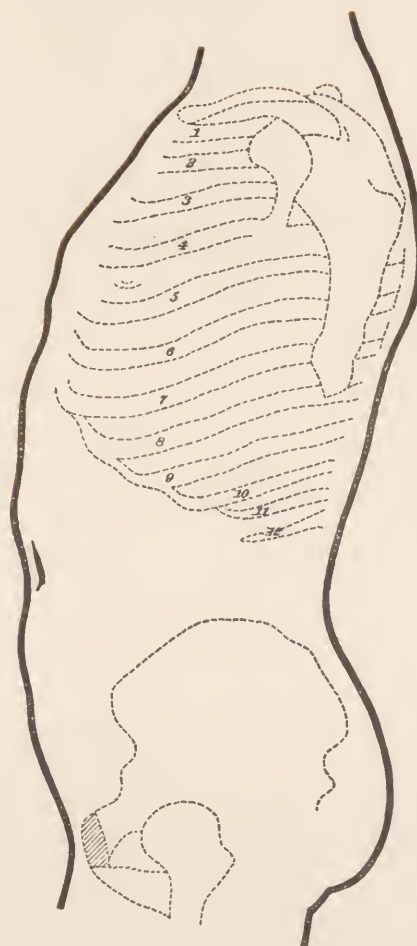

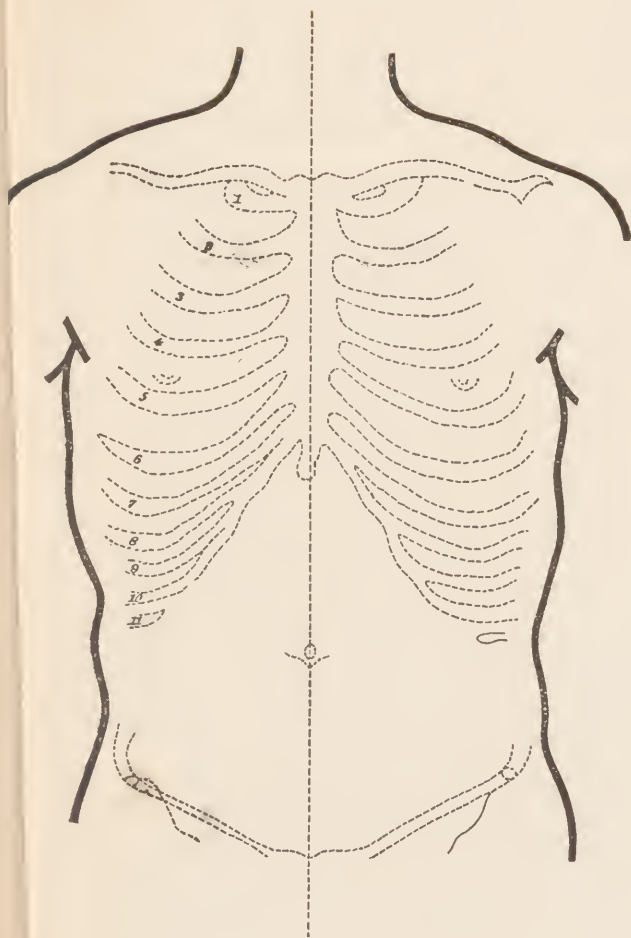

* Care must be taken in all cases to state this.

NOTE 1.—Army medical officers in granting certificates for "ABSENCE ON ACCOUNT OF SICKNESS" will use the above form. Certificates of a different form will not be recognized, nor will they serve to cover the absence of an officer. Where the officer (in the absence of an Army medical officer) substitutes his own certificate, he will be held responsible for any departure from the orders and instructions herein contained.

NOTE 2.—When the officer cannot procure the certificate of a medical officer of the Army, he will change the above form to make it appear as his own certificate, on honor.

NOTE 3.—When an officer is absent under a satisfactory certificate of disability, he will be entitled to the same pay as if *an order* had been issued granting him leave of absence on account of disability.

NOTE 4.—Extensions of sick leave are not granted in orders, and an officer will be considered as evading duty if the disease results from his own imprudence.

OUTLINE FIGURES

TO INDICATE THE

AREAS OF PHYSICAL SIGNS

During the Progress of Diseases

OF THE

CHEST AND ABDOMEN.

In these affections Medical Officers will often find it useful to map out the Areas of Dullness on Percussion, or other Physical Signs, with peneil or ink on one or more of the adjoining figures.

On the termination of the case the diagrams will be transmitted to the Surgeon General's Office with the Medical History.

REGISTER OF DEATHS AMONG CIVILIANS WITH THE COMMAND DURING THE MONTH.

[The information called for as to the diseases, deaths, and births of civilians is required to perfect the records of vital statistics, etc., in the Surgeon General's Office, and for this reason also Special Reports of interesting cases and autopsies will be forwarded.]

NAME.	AGE.	SEX.	RACE.	CAUSE.	DATE.
-------	------	------	-------	--------	-------

REMARKS.—Civilians treated in hospital during the month, with name and complaint of each.

[Mean strength and totals will be computed at the Surgeon General's Office.]

NOTE 1. Patients remaining under treatment at the end of last month will be brought forward and entered by name, with their proper numbers and dates of admission, on this Register. 2. They will be placed at the head of the page and separated from the others by a broad red line. 3. Facts once noted in columns VI, VII, VIII, IX, X, and XI need not be repeated, except in cases of Death or Discharge. 4. Names of patients will be placed on the double-ruled lines when matter to be entered in columns XI, XII, and XV is at all extensive. 5. The names of officers and enlisted men who are excused from any part of their military duty on account of sickness or injury will be entered on this Register. Enlisted men employed as cooks or attendants in hospital, when under treatment for disease or injury, must appear upon this Register as in the case of other enlisted men, and the fact of their employment as cooks and nurses in hospital noted. 6. Special Reports will be made for White and Black Troops and for organized Companies of Indian Scouts.

CONSOLIDATED REPORT OF MEDICAL DEPARTMENT—Continued.

VACCINATIONS DURING THE MONTH.	NUMBER OF CASES.	1. Officers and soldiers excused from duty because of vaccination will be entered on Register with vaccina. produced thereby.] REMARKS:	2. Note kind of virus used and general character of lesions
Vaccinated successfully			
Vaccinated unsuccessfully

REGISTER OF MARRIAGES DURING THE MONTH.

REGISTER OF BIRTHS DURING THE MONTH. 3. To establish the legal rights of the heirs of officers and enlisted men of the Army, the Register of Marriages, Births, and Deaths should be kept with the utmost care. 4. No erasures will be made. In case errors occur an explanation, signed by the medical officer, must be entered in the remarks. 5. Record also all civilian births occurring on the military reservation.

GENERAL REMARKS.

[6. Here note any matters of interest pertaining to the medical, hygienic, or sanitary condition of the troops and post, prevalent diseases of vicinity, etc., etc. 7. Reports of cases will not be entered in remarks, but will be made separately.]

I CERTIFY that the foregoing entries are correct, and that an accurate copy of this Register and Report is on file at this post.

The Register covers sheets, and is accompanied by the following special reports, viz:

Surgeon, U. S. Army.

The signature of the medical officer will be attached to every sheet.

DIRECTIONS.

Enlistments for the General Service must, in all cases, be made in triplicate. The recruiting officer will send two copies to the Superintendent with his monthly return, and a third to the depot at the time the recruits are sent there. In cases of soldiers re-enlisted in a regiment, or of regimental recruits, two copies only will be made, which will be forwarded to regimental headquarters—one copy for file, the other to accompany the monthly regimental recruiting return.

N. B.—In cases of Re-enlistment, the declaration of recruit will not be filled in, but it will be stated on the margin whether the soldier is single or married and the number of children, if any. The prefix "re-" will be added to the word "enlisted" where it occurs, and the assignment to Company and Regiment filled in below.

INVENTORY AND INSPECTION REPORT of _____, for which _____ is responsible, and which has been inspected and reported on by _____, Inspector General

I certify, on honor, that the above is a correct inventory, in every particular, of public property for which I am responsible, which I have personally examined and believe requires the action of an Inspector, and which, to the best of my knowledge and belief, has never been previously condemned.

DATE, _____

I certify that I have, this _____ day of _____, 188____, carefully examined each and every article enumerated in the accompanying inventory; that their condition is as stated above; and that the disposition recommended is, in my judgment, the best for the public interests. I also certify that the articles found to be utterly worthless have, as far as practicable, been destroyed in my presence.

Inspector.

INVENTORY
AND
INSPECTION REPORT
OF

FOR WHICH

is responsible

INSPECTED AT

ON THE

day of , 188

FOR DIRECTIONS—SEE OTHER SIDE.

The within articles will be disposed of

By order of _____

WAR DEPARTMENT,
WASHINGTON CITY, *January 2, 1876.*

This Form will be used for the inspection of property for condemnation in all the different departments of the Army. Requisitions for these blanks to be made direct upon the Inspector General at Washington.

BY ORDER OF THE SECRETARY OF WAR:

E. D. TOWNSEND,
Adjutant General, U. S. Army.

DIRECTIONS.—To be made out in triplicate, and, whenever practicable, forwarded to the Inspector through the proper channels; otherwise, it will be presented to him upon his arrival. Receiving his action, it will be forwarded for the orders of the Commander empowered to authorize the disposition of condemned property, and returned, with such orders, to the officer responsible for the property, who will send certified abstracts with any property ordered to be turned into depot or to be transferred to some other officer, which abstracts will, when practicable, be signed by the Inspector, or by an officer wholly disinterested in the disposition or responsibility of the property. This Form is designed for all descriptions of public property, but separate inventories are to be made for the property of each Staff Department; also for “CLOTHING, CAMP AND GARRISON EQUIPAGE,” as distinct from all other property of the Quartermaster’s Department, and for “COMMISSARY PROPERTY,” as distinct from “SUBSISTENCE STORES,” whenever property of the Subsistence Department is to be inspected. HORSES and MULES will be inventoried singly, with brief description of color, sex, age, and distinguishing marks. Of the inventories, one will be sent to the Chief of the Staff Department to which the property pertains, one will accompany the officer’s next stated accounts, and one will be retained by himself. In order to relieve an officer from liability on account of public property that has become damaged except by fair wear and tear, or otherwise unsuitable for use, or when deficiencies are found in it, it must, before being submitted to an Inspector for condemnation, be examined by a Board of Survey.

Articles to be "CONTINUED IN SERVICE" are such as the Inspector regards as still serviceable, and not proper subjects of present condemnation; those to be "DROPPED FROM RETURNS," if utterly worthless, to be so far destroyed, in the presence of the Inspector, whenever practicable, as to prevent any possibility of future presentation as public property; and when the presence of the Inspector is impracticable, the officer under whose personal supervision such articles are directed to be destroyed shall certify, on the monthly return of the officer responsible, to the destruction of the same; and such articles as cannot be so destroyed will, when practicable, be marked with the letters "I. C.," [Inspected, Condemned,] but otherwise to be broken up and serviceable parts retained; those "TO BE SOLD AT THE POST" are such as are of no further public use, or not worth the cost of transportation to the depot; those "TO BE TURNED INTO DEPOT" are such as cannot be repaired at the post and are worth the cost of turning them in; and those to be "TAKEN UP" are such *parts* of the broken-up articles as are still serviceable, and are to be kept for public use by the officer responsible, or transferred to depot, or to some other officer, whose receipt will be taken. Public animals will not be condemned for temporary disease or low flesh, but may be turned into the depot for recuperation or treatment if temporarily unserviceable. The special attention of Inspectors is called to the requirement of General Orders No. 8, Headquarters of the Army, A. G. O., March 3, 1869.

(Form No. 12.)

ACCOUNT OF SALES

OR

Medical and Hospital Property

SOLD AT

, 188 , under the

direction of

\$

, 188 .

The United States

To _____, Dr.

I CERTIFY that the above account is correct and just; that the attendance was rendered and the medicines furnished; that they were necessary, and that the charges do not exceed those customary in this vicinity.

, *M. D.*

I CERTIFY that the above account is correct and just; that the services were rendered and the medicines furnished as stated; that they were necessary for the public service; that _____ was on duty at the time and place specified, and that the services of a medical officer of the Army could not be obtained because _____

U. S. Army.

SURGEON GENERAL'S OFFICE,

, 188 .

Headquarters Department of

MEDICAL DIRECTOR'S OFFICE,

Approved by order of the Surgeon General
for \$, appropriation for
the Medical and Hospital Department for the
year ending June 30, 188 .

Respectfully forwarded to the Surgeon General

U. S. Army, approved.

U. S. Army.

NOTES.

1. Accounts of Citizen Physicians, not under contract, will be made out on this form, in duplicate, but need not be receipted.
2. The Officer's Certificate must show that the attendance was furnished to Officers or enlisted men who were on duty at the time and place stated, and that the services of a Medical Officer could not be obtained. When they cannot be certified by a Commissioned Officer they must be sworn to before an Officer of the Army, or before a Notary Public, Clerk of Court, or other municipal officer having an official seal.
3. Medical attendance or medicines for families or servants of officers cannot be paid for by the United States. (See G. O. No. 64 of 1873.)
4. When an Officer has paid the account, that fact should be plainly stated in the certificate, both of the Officer and of the physician.
5. The accounts should be forwarded to the Medical Director of the Department for his action. The accounts of each fiscal year (which ends June 30) must be distinct.
6. The nature of the disease or injury and the date and number of visits should be set forth in the body of the account.
7. Officers on detached duty should cite the order under which they are acting.

67. Aggregate number of days' service lost to Government by sickness of soldiers during year -----
68. Cleanliness of patients on admission, discipline -----
69. Nursing—how and by whom performed, night service -----
70. Occupation and amusements of convalescents, reading matter, games, &c. -----
71. Prevalent diseases at post and vicinity -----
72. Nature and amount of diseases amongst women, children, civil employés, camp followers at post, number and cause of deaths, and number of births at post during year.
73. Diseases, if any, of local origin -----
74. Diseases supposed to be checked by hygienic measures -----
75. Hospital supplies—whence obtained, quality, and condition in which received and kept -----
76. Instruments—hospital and personal, condition -----
77. Amount, nature, and condition of hospital bedding -----
78. Amount, nature, and condition of hospital clothing -----
79. Amount and condition of hospital appliances -----
80. Hospital library—number of volumes, condition, and conveniences for preservation -----
81. Hospital records, blanks, condition, supply, completeness ; files of orders, condition -----
82. Average monthly temperature—extremes, wind, moisture -----
83. Means of subduing fire at post, and special at hospital -----
84. Means for transportation of sick and wounded—ambulances, stretchers -----
85. Hospital tents—extra number, how kept, condition, and use -----

HOSPITAL
AND
SANITARY—C'd.

- 86. Interments—how conducted ; post cemetery—area, care, and condition-----
- 87. Inhabitants of surrounding country, Indian tribes, &c. -----
- 88. Sanitary measures recommended at post—copies marked and appended herewith-----
- 89. Extra sanitary measures enforced in hospital-----
- 90. Miscellaneous facts and general recommendations -----

DIRECTIONS.

Medical officers making this report will be governed by the Regulations for the Army, and by existing orders and circulars.
The headings on this form are necessarily brief, and an intimate knowledge of, or an immediate reference to, Regulations and orders is necessary to give the desired information.
When more space is required, reference must be made to notes by Roman numerals, or to special reports by capital letters.
When alterations, or improvement or repairs, requiring the action of heads of Bureaus, are considered essential, special reports, accompanied by plans and approximate estimates of quantities and cost, will be made.
Note all alterations made in post since last report, and state if made in consequence of medical advice. Changes and alterations to be given in red ink.

---Concluded.

Surgeon, U. S. Army.

INVENTORY AND INSPECTION REPORT of _____, for which _____ is responsible, and which has been inspected and reported on by _____, Inspector General

INVENTORY.						INSPECTION REPORT.											REMARKS. NOTE.—Whenever practicable, the Inspector will note in this column when, where, and from whom stores were purchased, the name of the purchasing officer or agent, and the marks upon original packages.
ARTICLES.	QUANTITY.	RECEIVED BY THE OFFICER NOW RESPONSIBLE.		CONDITION WHEN RECEIVED.	CONDITION WHEN RECEIVED AT POST, (IF KNOWN.)	HOW RENDERED UNSERVICEABLE.	NATURE, EXTENT, AND PROBABLE CAUSE OF DAMAGE.	DISPOSITION RECOMMENDED.									
		WHEN.	FROM WHOM.					To be continued in service.	TO BE DROPPED.		To be repaired or repacked at Post.	To be sold at Post.	TO BE TURNED INTO DEPOT.			To be broken up.	
									To be destroyed.	To be broken up.			For issue.	For repairs or recuperation.	For sale.		

I certify, on honor, that the above is a correct inventory, in every particular, of public property for which I am responsible, which I have personally examined and believe requires the action of an Inspector, and which, to the best of my knowledge and belief, has never been previously condemned.

I certify that I have, this _____ day of _____, 188____, carefully examined each and every article enumerated in the accompanying inventory; that their condition is as stated above; and that the disposition recommended is, in my judgment, the best for the public interests. I also certify that the articles found to be utterly worthless have, as far as practicable, been destroyed in my presence.

INVENTORY
AND
INSPECTION REPORT
OF

FOR WHICH

is responsible,
INSPECTED AT

ON THE

day of , 188

FOR DIRECTIONS—SEE OTHER SIDE.

The within articles will be disposed of

By order of

WAR DEPARTMENT,
WASHINGTON CITY, *January 2, 1876.*

This Form will be used for the inspection of property for condemnation in all the different departments of the Army. Requisitions for these blanks to be made direct upon the Inspector General at Washington.

BY ORDER OF THE SECRETARY OF WAR:

E. D. TOWNSEND,
Adjutant General, U. S. Army.

DIRECTIONS.—To be made out in triplicate, and, whenever practicable, forwarded to the Inspector through the proper channels; otherwise, it will be presented to him upon his arrival. Receiving his action, it will be forwarded for the orders of the Commander empowered to authorize the disposition of condemned property, and returned, with such orders, to the officer responsible for the property, who will send certified abstracts with any property ordered to be turned into depot or to be transferred to some other officer, which abstracts will, when practicable, be signed by the Inspector, or by an officer wholly disinterested in the disposition or responsibility of the property. This Form is designed for all descriptions of public property, but separate inventories are to be made for the property of each Staff Department; also for “CLOTHING, CAMP AND GARRISON EQUIPAGE,” as distinct from all other property of the Quartermaster’s Department, and for “COMMISSARY PROPERTY,” as distinct from “SUBSISTENCE STORES,” whenever property of the Subsistence Department is to be inspected. HORSES and MULES will be inventoried singly, with brief description of color, sex, age, and distinguishing marks. Of the inventories, one will be sent to the Chief of the Staff Department to which the property pertains, one will accompany the officer’s next stated accounts, and one will be retained by himself. In order to relieve an officer from liability on account of public property that has become damaged except by fair wear and tear, or otherwise unsuitable for use, or when deficiencies are found in it, it must, before being submitted to an Inspector for condemnation, be examined by a Board of Survey.

Articles to be “CONTINUED IN SERVICE” are such as the Inspector regards as still serviceable, and not proper subjects of present condemnation; those to be “DROPPED FROM RETURNS,” if utterly worthless, to be so far destroyed, in the presence of the Inspector, whenever practicable, as to prevent any possibility of future presentation as public property; and when the presence of the Inspector is impracticable, the officer under whose personal supervision such articles are directed to be destroyed shall certify, on the monthly return of the officer responsible, to the destruction of the same; and such articles as cannot be so destroyed will, when practicable, be marked with the letters “I. C.,” [Inspected, Condemned,] but otherwise to be broken up and serviceable parts retained; those “TO BE SOLD AT THE POST” are such as are of no further public use, or not worth the cost of transportation to the depot; those “TO BE TURNED INTO DEPOT” are such as cannot be repaired at the post and are worth the cost of turning them in; and those to be “TAKEN UP” are such *parts* of the broken-up articles as are still serviceable, and are to be kept for public use by the officer responsible, or transferred to depot, or to some other officer, whose receipt will be taken. Public animals will not be condemned for temporary disease or low flesh, but may be turned into the depot for recuperation or treatment if temporarily unserviceable. The special attention of Inspectors is called to the requirement of General Orders No. 8, Headquarters of the Army, A. G. O., March 3, 1869.

INVENTORY AND INSPECTION REPORT of _____, for which _____ is responsible, and which has been inspected and reported on by _____, Inspector General.
